

main/L2_Applications
/Applications/Menu/MenuApplication.hpp

```
graph BT; A["main/L2_Applications /Applications/Menu/MenuApplication.cpp"] --> B["main/L2_Applications /Applications/Menu/MenuApplication.hpp"]; C["main/L2_Applications /ApplicationsManager.cpp"] --> B;
```

The diagram illustrates a header file dependency. At the top, a grey box represents the header file: `main/L2_Applications /Applications/Menu/MenuApplication.hpp`. Below it, two white boxes represent source files. The left box, `main/L2_Applications /Applications/Menu/MenuApplication.cpp`, has a blue arrow pointing up to the header file. The right box, `main/L2_Applications /ApplicationsManager.cpp`, also has a blue arrow pointing up to the same header file.

main/L2_Applications
/Applications/Menu/MenuApplication.cpp

main/L2_Applications
/ApplicationsManager.cpp
